Governor

**DEPARTMENT OF TOXIC SUBSTANCES CONTROL
WEEKLY PROJECT UPDATE
ZENECA/FORMER STAUFFER CHEMICAL SITE
Richmond, California
Activities for March 21-25, 2005**

Site Activities

- Due to inclement weather, no site activities occurred this week.

Future Activities

Future activities that will occur over the next 30 days include:

- Off- hauling of the tarped stockpile soil and 4,000 cubic yard of hazardous waste sediments currently stockpiled in the upland area.
- Air monitoring will continue while these activities occur.

Reports or other documents to be submitted to DTSC:

- Workplan to repair the temporary cap.
- Assessment of the current groundwater monitoring activities.
- Current Conditions Report for Lots 1 and 2.

Air Monitoring

No real-time air monitoring occurred during the week of March 11 - 17, 2005 as no site activities occurred.

Public Participation

- DTSC received approximately 55 applications for consideration to serve on the Community Advisory Group (CAG) that is being formed for the Zeneca Site. The deadline to apply to serve on the CAG was March 18, 2005.
- DTSC staff will meet with the other members of the selection committee on March 28, 2005 to discuss the CAG applications. Letters from DTSC will go out to all CAG applicants announcing the newly formed CAG once the selection has been made. The announcement will also be placed in the weekly Zeneca update.
